SCOPE OF EXAMINATION

The examination was conducted pursuant to and in accordance with both the NAIC Financial Condition Examiners Handbook (Handbook) and Section §44-5904(1) of the Nebraska Insurance Statutes. The Handbook requires that examiners plan and perform the examination to evaluate the financial condition and identify prospective risks of the Company by obtaining information about the Company, including but not limited to: corporate governance, identifying and assessing inherent risks within the Company, and evaluating system controls and procedures used to mitigate those risks. The examination also includes assessing the principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation and management's compliance with Statutory Accounting Principles and Annual Statement Instructions when applicable to domestic state regulations.

The examination was completed under coordination of the holding company group approach with the Nebraska Department of Insurance as the coordinating state and the Texas Department of Insurance as the participating state. The companies examined under this approach

benefit to a large degree from common management, systems and processes, and internal control and risk management functions that are administered at the consolidated or business unit level.

The coordinated examination applies procedures sufficient to comprise a full scope financial examination of each of the companies in accordance with the examination procedures and standards promulgated by the NAIC and by the respective state insurance departments where the companies are domiciled. The objective is to enable each domestic state to report on their respective companies' financial condition and to summarize key results of examination procedures.

The Nebraska Department of Insurance made a general review of the Company's operations and the manner in which its business has been conducted in order to determine compliance with statutory and charter provisions. The Company's history was traced and has been set out in this report under the caption "Description of Company." All items pertaining to management and control were reviewed, including provisions for disclosure of conflicts of interest to the Board of Directors and the departmental organization of the Company. The Articles of Incorporation and By-Laws were reviewed, including appropriate filings of any changes or amendments thereto. The minutes of the meetings of the Shareholder, Board of Directors, and committees held during the examination period were read and noted. Attendance at meetings, proxy information, election of Directors and Officers, and approval of investment transactions were also noted.

The fidelity bond and other insurance coverages protecting the Company's property and interests were reviewed, as were plans for employee welfare and pension. Certificates of Authority to conduct the business of insurance in the various states were inspected, and a survey was made of the Company's general plan of operation.

Data reflecting the Company's growth during the period under review, as developed from the Company's filed annual statements, is reflected in the financial section of this report under the caption "Body of Report."

The Company's reinsurance facilities were ascertained and noted and have been commented upon in this report under the caption "Reinsurance." Accounting records and procedures were tested to the extent deemed necessary through the risk-focused examination process. The Company's method of claims handling and procedures pertaining to the adjustment and payment of incurred losses were also noted.

All accounts and activities of the Company were considered in accordance with the risk-focused examination process. This included a review of workpapers prepared by Deloitte & Touche LLP, the Company's external auditors, during their audit of the Company's accounts for the years ended December 31, 2023 and 2024. Portions of the auditor's workpapers have been incorporated into the workpapers of the examiners and have been utilized in determining the scope and areas of emphasis in conducting the examination. This utilization was performed pursuant to Title 210 (Rules of the Nebraska Department of Insurance), Chapter 56, Section 013.

Any failure of items to add to the totals shown in schedules and exhibits appearing throughout this report is due to rounding.

COMMENTARY ON CURRENT EXAMINATION FINDINGS

Schedule P Reconciliations

While reviewing the Actuarial Report and Schedule P within the Annual Statement, it was noted that an earned premium reconciliation was included for Other Liability but not included for other segments.
