Dear Sir:

Pursuant to your instruction and authorizations, and in accordance with statutory requirements, an examination has been conducted of the financial condition and business affairs of:

OMAHA HEALTH INSURANCE COMPANY
Mutual of Omaha Plaza
Omaha, Nebraska 68175

(hereinafter also referred to as the “Company”) and the report of such examination is respectfully presented herein.

INTRODUCTION

The Company was last examined as of December 31, 2017 by the State of Nebraska. The current financial condition examination covers the intervening period to, and including, the close of business on December 31, 2018, and includes such subsequent events and transactions as were considered pertinent to this report. The States of Nebraska and New York participated in this examination and assisted in the preparation of this report.

The same examination staff conducted concurrent financial condition examinations of the Company’s parent, Mutual of Omaha Insurance Company (Mutual of Omaha), and subsidiaries, United of Omaha Life Insurance Company, Omaha Reinsurance Company, United World Life Insurance Company, Companion Life Insurance Company, Omaha Insurance Company, Mutual

of Omaha Medicare Advantage Company, and Medicare Advantage Insurance Company of Omaha.

SCOPE OF EXAMINATION

This examination was conducted pursuant to and in accordance with both the NAIC Financial Condition Examiners Handbook (Handbook) and Section §44-5904(1) of the Nebraska Insurance Statutes. The Handbook requires that examiners plan and perform the examination to evaluate the financial condition and identify prospective risks of the Company by obtaining information about the Company including, but not limited to: corporate governance, identifying and assessing inherent risks within the Company, and evaluating system controls and procedures used to mitigate those risks. The examination also includes assessing the principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation and management's compliance with Statutory Accounting Principles and Annual Statement Instructions, when applicable to domestic state regulations.

The examination was completed under coordination of the holding company group approach with the Nebraska Department of Insurance as the coordinating state and the New York State Department of Financial Services serving as the participating state. The companies examined under this approach benefit to a large degree from common management, systems and processes, and internal control and risk management functions that are administered at the consolidated or business unit level.

The coordinated examination applies procedures sufficient to comprise a full scope financial examination of each of the companies in accordance with the examination procedures and standards promulgated by the NAIC and by the respective state insurance departments where the companies

are domiciled. The objective is to enable each domestic state to report on their respective companies' financial condition and to summarize key results of examination procedures.

A general review was made of the Company's operations and the manner in which its business has been conducted in order to determine compliance with statutory and charter provisions. The Company's history was traced and has been set out in this report under the caption "Description of Company". All items pertaining to management and control were reviewed, including provisions for disclosure of conflicts of interest to the Board of Directors and the departmental organization of the Company. The Articles of Incorporation and By-Laws were reviewed, including appropriate filings of any changes or amendments thereto. The minutes of the meetings of the Shareholder, Board of Directors and committees, held during the examination period, were read and noted. Attendance at meetings, proxy information, election of Directors and Officers, approval of investment transactions, and authorizations of salaries were also noted.

The fidelity bond and other insurance coverages protecting the Company's property and interests were reviewed, as were plans for employee welfare and pension plans. Certificates of Authority to conduct the business of insurance in the various states were inspected and a survey was made of the Company's general plan of operation.

Data reflecting the Company's growth during the period under review, as developed from the Company's filed annual statements, is reflected in the financial section of this report under the caption "Body of Report".

The Company's reinsurance facilities were ascertained and noted, and have been commented upon in this report under the caption "Reinsurance". Accounting records and procedures were tested to the extent deemed necessary through the risk-focused examination

process. The Company's method of claims handling and procedures pertaining to the adjustment and payment of incurred losses were also noted.

All accounts and activities of the Company were considered in accordance with the risk-focused examination process. This included a review of workpapers prepared by Deloitte & Touche LLP, the Company's external auditors, during their audit of the Company's accounts for the years ended December 31, 2017 and 2018. Portions of the auditor's workpapers have been incorporated into the workpapers of the examiners and have been utilized in determining the scope and areas of emphasis in conducting the examination. This utilization was performed pursuant to Title 210 (Rules of the Nebraska Department of Insurance), Chapter 56, Section 013.

Any failure of items to add to the totals shown in schedules and exhibits appearing throughout this report is due to rounding.

services. Most of the expenses related to these resources were paid by Mutual of Omaha and subject to allocation among Mutual of Omaha and its subsidiaries.

Regular operating expenses of the companies are paid through the Account Payable and Expense Accounting Department of Mutual of Omaha. In general, these expenses are processed through an electronic allocation system maintained by the Budget and Expense Management Department. This system, through the use of department ID's, allocates operating expenses based on cost drivers such as number of employees, square footage utilized, number of transactions processed, etc., to redistribute operating expenses to product lines within each of the companies receiving the services.

Statistical bases or theories used in allocation formulas are developed by the Finance Operation's staff and reviewed by the companies' external auditors during their annual audit.

Tax Allocation Agreement

A consolidated federal income tax return is filed for Mutual of Omaha and its eligible subsidiaries pursuant to a written agreement approved by the Board of Directors. Each company's provision for federal income tax expense is based on separate return calculations with credit for operating losses allowed by the parent company only as each company would utilize such losses on a separate return basis with limited exceptions.

Revolving Lines of Credit

The Company has a revolving line of credit with its parent, Mutual of Omaha. As of December 31, 2018, the Company did not have any outstanding borrowings under the agreement.
