

When Does My Producer Insurance License Renew?

All producer licenses shall expire on the last day of the producer's birth month in the first year after issuance in which his or her age is divisible by two. Therefore, individuals born in even numbered years renew their license at the end of their birth month in the even numbered years and individuals born in odd numbered years renew their license at the end of their birth month in the odd numbered years. Licenses may be renewed within the ninety-day period before their expiration dates.
