**Plan C and Plan F are only available to individuals who turned 65 prior to 1/1/2020.**

**\*High Deductible Policy** —High deductible policies offers the same coverage as a Plan F or Plan G policy once an annual deductible has been met (\$2,370 deductible in 2021). Prior to meeting the deductible, you are responsible for the costs listed on the left of the above chart. These costs will go towards the annual deductible.

<sup>1</sup> Plan N pays 100% Part B coinsurance except up to \$20 copayment for office visits and up to \$50 copayment for ER visits.

Medicare Supplement Insurance, or Medigap, is sold by private companies, and helps pay some of the health care costs left after Original Medicare has paid its portion like copayments, coinsurance and deductibles. Medicare Supplement Plans offers a specific standardized list of benefits. For example, a Plan G policy from one company must offer the same benefits as a Plan G policy from all other companies. Since each plan's benefits are identical from company to company, premium comparison and special conditions are important to consider when choosing a policy that is right for you.

Rates will vary depending on plan, zip code, tobacco use, age and sex. The following information provides estimated price ranges for a 65 year old non-tobacco user. Rates were generated as of 12/14/2020.
